

CASHETICA - foldable crates

Reusable Plastic Containers (RPC)

RPC #604017

Design and Features

- Ensure maximum freshness and quality**
 Non-porous surface that is easy to clean and guarantees hygiene and safety for the entire food range
- Reduce Product Damage with Industrial Durability**
 Robust construction prevents damage during intensive transport, stacking, and storage
- Optimize Costs and Increase Efficiency**
 Reusability eliminates single-use packaging costs and reduces storage and transport operating costs
- Sustainability at the Highest Level**
 Long service life eliminates waste and is fully compliant with PPWR. 100% recyclable

CASHETICA - foldable crates

Reusable Plastic Containers

RPC #304012

Design and Features

- Ensure maximum freshness and quality**
 Non-porous surface that is easy to clean and guarantees hygiene and safety for the entire food range
- Reduce Product Damage with Industrial Durability**
 Robust construction prevents damage during intensive transport, stacking, and storage
- Optimize Costs and Increase Efficiency**
 Reusability eliminates single-use packaging costs and reduces storage and transport operating costs
- Sustainability at the Highest Level**
 Long service life eliminates waste and is fully compliant with PPWR. 100% recyclable

- Stable vertical stacking** with an interlocking system
- Ergonomic handles** enable easier and more comfortable carrying
- Direct display** without additional equipment saves time and money
- Food Contact Safe**
- Foldable sides** reduce return logistics and storage costs
- RFID/barcode tracking**
